

## What People Are Saying about *Today's Father*

Since most programming we air is geared toward women listeners, I'm constantly on the lookout for better ways to meet the spiritual and personal needs of our male audience. *Today's Father* gives south central Wisconsin men another reason to tune in and provides us with an excellent means to encourage them."

"Every morning I listen to you.... Your messages not only help dads, but definitely help me as a mother of a teenage daughter. There have been several times when you've addressed a subject that we're dealing with in our household (God's perfect timing). Thank you, as a mother/woman, for your insight. We are listening too!"

*Sandy — Minnesota*

"I wake up to your message of inspiration and hope every morning on Family Radio. You give just the type of concrete step by step assistance that I need to become a better father. Thank you for being there."

"I'm a 17-year-old girl who listens to your show all the time. Thank you for not only encouraging and directing men like my dad, but for giving young people something to think about in the process. I intend to follow most of your advice when I become a mother someday. This daughter appreciates your efforts."
