

# Start Preparing Your Kids For College

*...Starting Now*

National Center  
for Fathering  
*Engaging fathers. Enriching lives.™*

Provide homework help, counsel or knowledge.

Engage with your child's school. Maybe that means talking with their teachers, volunteering or joining PTA!

Steer your children away from risky behaviors that may prevent them from completing college!

Talk about life purpose in a way that describes continued education as a stepping stone.

Discuss the balance between freedom and responsibility.

Discuss your expectations for their college years openly.
